

Material

Seal ①	PU10
Anti-extrusion ring ②	POM
Colour	Blue/brown

Operating conditions

Pressure	up to 500 bar
Temperature	-40°C to +100°C
Speed	≤ 0,5 m/s

Assembly

In one-piece housing

Advantage

- Small section
- To use as «buffer» seal (primary rod seal)
- easy installation
- simple groove design and space-saving construction
- excellent wear-resistance
- high resistance against extrusion
- good temperature resistance
